ATP RESET MOISTURIZER AND POLLUTION SHIELD SUNSCREEN, SENTE

ATP Reset Moisturizer from Sente is designed to address intracellular stress by enabling skin to de-stress, re-energize, and reset through a unique blend of natural extracts. This multi-functional weightless moisturizer delivers rich hydration with niacinamide, dimethicone, panthenol, and cross-linked hyaluronic acid. The formula also contains a proprietary blend of natural extracts: *Zanthoxylum bungeanum* fruit extract and synthetic amino acid derivative; Sunflower and soy derived phospholipids; *Physalis pubescens* and *Solanum lycopersicum* fruit extracts.

Pollution Shield SPF 46 Sunscreen is an elegant full-physical broad spectrum sunscreen with technologies to shield and detoxify the skin. Active ingredients Titanium Dioxide 5.3% and Zinc Oxide 14.5% defend against UV rays. The formula features Sente “Second Skin Technology,” described as an invisible breathable layer that protects against harmful pollutants. Sentelabs.com

ALL CALM CLINICAL REDNESS CORRECTOR, COLORESCIENCE

Colorescience introduced All Calm Clinical Redness Corrector to help neutralize redness with its subtle green undertones. The patent-pending BioSolace complex helps provide ongoing relief from sensitivity and the appearance of redness. In addition, it includes full-spectrum UVA/UVB SPF 50 sun protection via 100 percent mineral, chemical-free active ingredients.

“It’s such a great feeling to see a smiling rosacea patient after they have tried All Calm for the first

time. It addresses and covers redness, acts as a moisturizing color corrector and sunscreen all in one,” says Dr. Shari Topper, a Board Certified Dermatologist in Boca Raton, FL and a Colorescience physician partner, in a news release.

All Calm is available through a network of dermatologists and licensed skincare professionals. Colorescience.com

NECTIFIRM ADVANCED, REVISION SKINCARE

Revision Skincare is expanding the Nectifirm collection with Nectifirm Advanced. Nectifirm Advanced harnesses the power of the microbiome for maintaining skin health. Active ingredients such as Diglycosyl Gallic Acid work with the skin’s own microbiome to enhance natural mechanisms for brighter, more even skin tone. Nectifirm Advanced also contains a proprietary blend of eight distinctive peptides to lessen the look of fine lines and wrinkles. Lingonberry Extract helps the skin enhance its own antioxidant system, while an extract of Red Microalgae soothes and provides a lifting effect. Multiple other specialized ingredients slim and form the neck by addressing adipose tissue, the company states.

Nectifirm Advanced is available exclusively through dermatologists, plastic surgeons, and medical spas.

A-OXITIVE ANTIOXIDANT PRODUCTS, AVÈNE

Avène introduced A-Oxitive Antioxidant Defense Serum and A-Oxitive Antioxidant Water Cream, products designed to leave skin protected, hydrated, smooth, and visibly plumped with less visible pores, minimizing the appearance of fine lines and wrinkles. The products are ideal for all types of sensitive skin and dull, dehydrated complexions, and the formulas offer 24-hour hydration. The products are formulated with hyaluronic acid to visibly plump and smooth the skin and with Avène Thermal Spring Water to soften and restore skin’s balance. The products are hypoallergenic and non-comedogenic. To preserve stability the products come in an airless pump bottle. Aveneusa.com ■
